ADDITIONAL COMMENTS, TAPING / SPECIAL INSTRUCTIONS:

DISCLOSER / DISCLAIMER:

Powder coating items must withstand a 400-degree cure temperature. You must remove all gaskets, seals, any plastic, etc. **Extra charges will apply for parts in need of dismantling and/or assembly.** Media blasting is available to remove old paint and finishes and is included in the above price. PURCHASER expressly acknowledges the existence of the pre-existing damage to parts described above and releases Bonehead Performance Inc. from any liability or loss in connection with such damage, including an exacerbation of the described damage.

Cast aluminum and magnesium parts may experience out-gassing and/or bubbling in the powder coated finish. Bonehead Performance Inc. will take every precaution to avoid out-gassing, however Bonehead Performance Inc. cannot be held responsible for bubbling caused by porous substrates.

Bonehead Performance Inc. does everything in their power to get your items prepped and coated in a timely fashion. Due to having many customers, we have found it easier for both the customer and Bonehead Performance Inc. to use the FIFO method (first in first out). Turn around time's change daily and we do our best to represent an accurate time frame.

Bonehead Performance Inc. is not responsible for any items that are damaged during the powder coating or ceramic coating process. Customer is responsible for all interior & exterior cleaning prior to placing items back in to use. **After completion, any item not picked up within a 10-business day period will incur a daily storage fee of \$5 per day. Items not picked up within a 30-day period becomes the property of Bonehead Performance Inc.**

There is a 50% charge for RUSH jobs!
